# ERCOT.com Production Release Notes

Release Date Window: November 17-20, 2021

ERCOT has made enhancements to the ERCOT.com navigation menu as well as some content display changes. In addition, the website will now utilize HTTPS protocol for enhanced security.
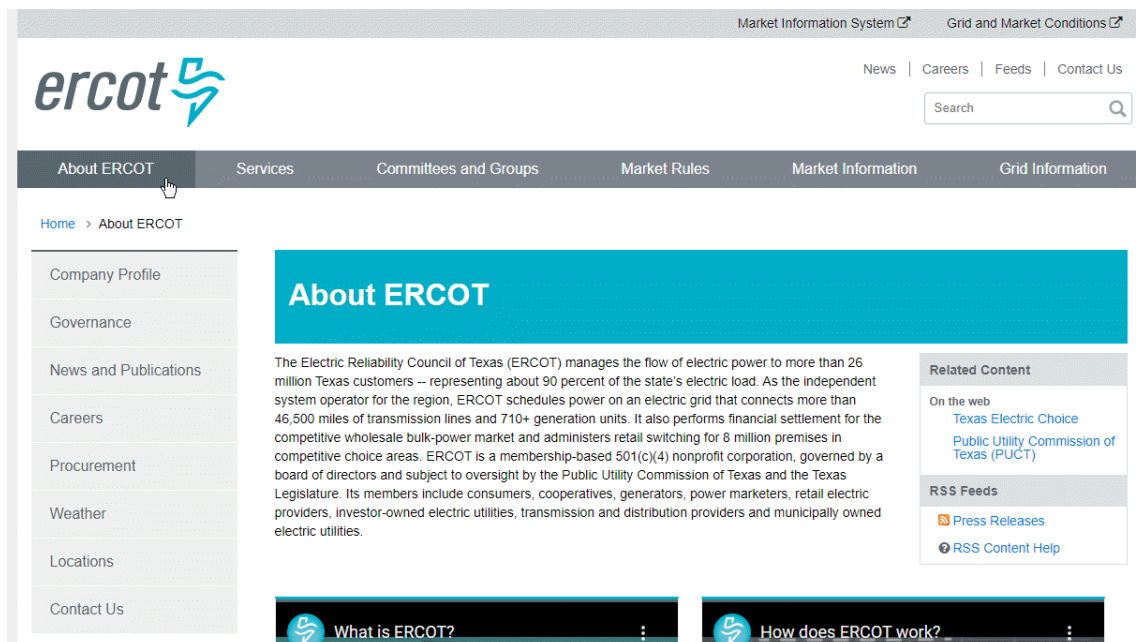

Redesigned navigation structure
The new navigation will span the top of the website only. The left side navigation will no longer be available.

New navigation, which is accessible by hovering over navigation categories on any screen:

The current navigation, found on the left side of the screen, will no longer be available:

Navigation categories
The six current site categories (About ERCOT, Services, Committees and Groups, Market Rules, Market Information, and Grid Information) will remain, and an additional category devoted to Market Participants will be added.

The Market Participants section will contain grid and market dashboards, the searchable ERCOT Market Information List (EMIL), the Market Information System (MIS), as well as quick links to market rules, market communications, and the meeting calendar.

The LOG IN button above the navigation categories will allow users with Digital Certificates to authenticate to the MIS for viewing Secure and Certified products.

Frequently Asked Questions

Will my existing Digital Certificate(s) for the ERCOT Market Information System (MIS) still work?
Yes, Digital Certificates will still work. There will be no changes at this time to the Digital Certificates that are used to authenticate with the MIS. Click the LOG IN button above the site navigation to authenticate to MIS.

Will the URLs to any of the ERCOT applications be changing?
No. The URLs to ERCOT applications will not change with this release.

Will I still be able to search the ERCOT Market Information List (EMIL)?
Yes. The EMIL will continue to function as it does today. You can find it in the new Market Participants navigation category.

Will the page URLs change?
Yes, many of the website page URLs will change. A comprehensive list of updated URLs will be provided in the final market notice regarding this release the week of November 15, 2021.

What is the preferred browser of the new website?
The new updated website will perform best on Chromium-based browsers such as Chrome and Edge.

Will the GetReports functionality remain after this release?
Yes. The GetReports (GetReports.do?reportTypeId) functionality for downloading reports will remain available.

If you have questions not covered in these release notes, please contact your Client Services representative, the ERCOT HelpDesk or webmaster@ercot.com.
