

ERCOT.com Production Release Notes

Release Date: May 17, 2022

ERCOT has made enhancements to ERCOT.com based upon Market Participant feedback. Here are the updated items you will notice after the May 17, 2022, release.

Enhanced search

Now, you can sort search returns by relevance or date posted. Downloadable files that are provided in search returns now include the posting location, so you can easily access the page(s) where the document resides on the website.

The screenshot shows the ERCOT.com search page. At the top, there is a navigation bar with the ERCOT logo and links for About ERCOT, Services, Committees and Groups, Market Rules, Market Information, Grid Information, and Market Participants. Below the navigation bar is a search bar with the text "R100" and a search icon. To the left of the search bar are two filter sections: "Info Type" and "Date Range". The "Info Type" section lists categories like Supporting Documents (447), Alerts and Notices (57), Calendar and Events (32), Market Rules (2), and Page (2). The "Date Range" section lists years from 2017 to 2022 with the number of results for each year. Below the search bar, there are links for "Other available searches" including Data Products Search, Market Notice Archives, and MIS Notices Search. A dropdown menu is open, showing sorting options: Relevance (selected), Date Posted (Newest), and Date Posted (Oldest). Below the search bar, it says "540 results found" and "25 per page". A search result is displayed for "RIOO-IS IE Guide" with a "Posting Location: Resource Entities" link highlighted by a red box and an arrow. The result also includes the text "Last updated: Nov 11, 2019 10:33 CST" and a "Supporting Documents" link.

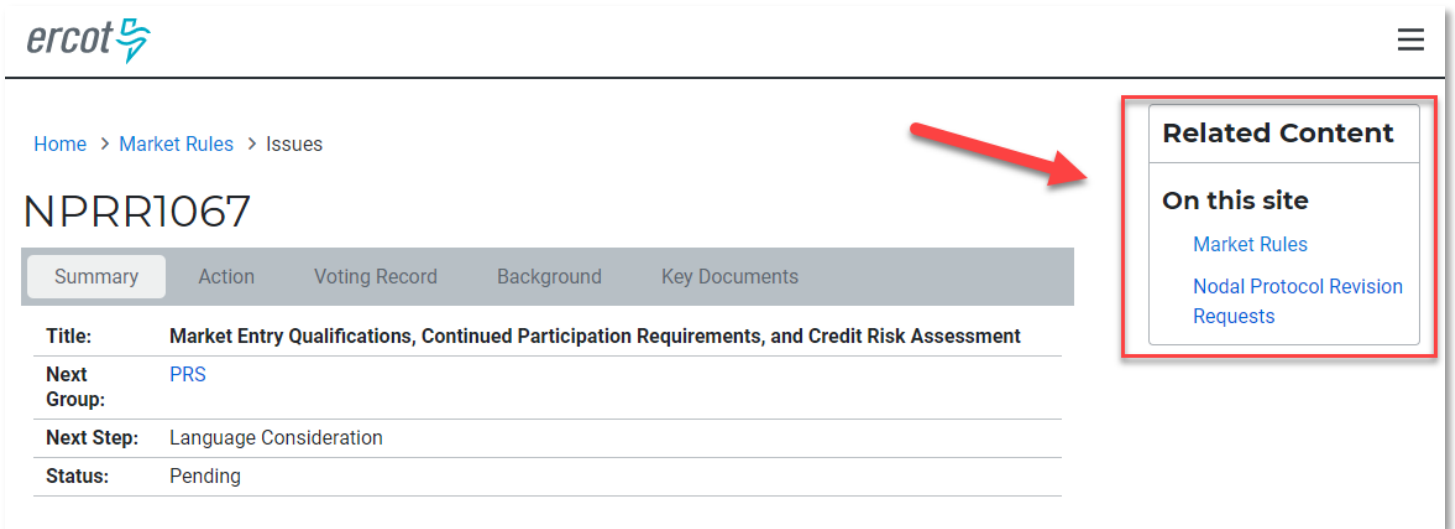

Search the Meeting Calendar

You can now search for events (past or future) in the meeting calendar by setting the **Date Range**, the **Status**, and/or the **Committee**.

The screenshot shows the ERCOT.com meeting calendar. The calendar is organized by date, with sections for Monday, May 16, 2022; Tuesday, May 17, 2022; Wednesday, May 18, 2022; and Wednesday, May 25, 2022. Meetings listed include CMWG Meeting, RPG Meeting, PLWG Meeting, CWG/MCWG Meeting, PDCWG Meeting, and TAC Meeting. Each meeting entry includes the meeting name, location (e.g., ERCOT Taylor, TCC1), time (9:30 AM), and an "Add to" button with a calendar icon. On the right side of the calendar, there is a search filter panel with a "Date Range" section (05/15/2022 - 06/14/2022), a "Status" dropdown menu, and a "Select a committee" search field with a search icon. A red arrow points from the "Date Range" filter to the "CMWG Meeting" entry.

Helpful Related Content links added

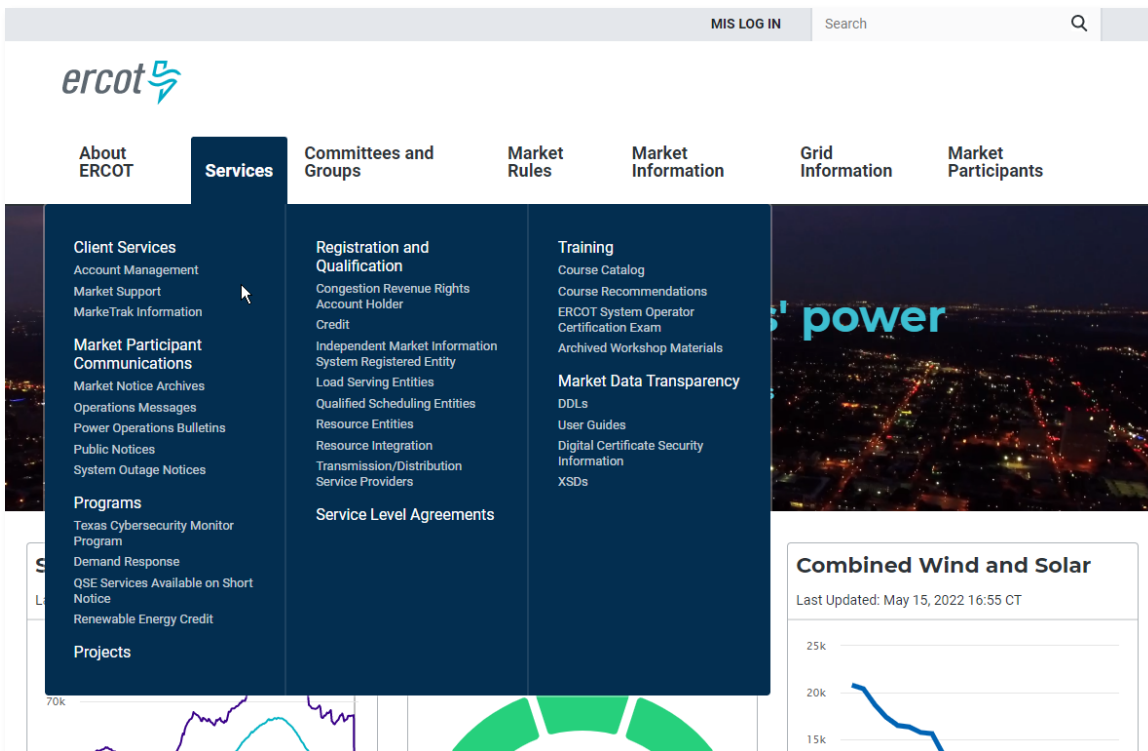

Links have been added to certain pages in the Related Content section in the top right of the screen. These links will help you quickly return to a previous page or jump to a related page.

The screenshot shows the ERCOT website interface. At the top left is the ERCOT logo. Below it is a breadcrumb trail: Home > Market Rules > Issues. The main content area displays 'NPRR1067' with tabs for Summary, Action, Voting Record, Background, and Key Documents. The 'Summary' tab is active, showing details for 'Market Entry Qualifications, Continued Participation Requirements, and Credit Risk Assessment'. On the right side, a 'Related Content' box is highlighted with a red border and a red arrow pointing to it. This box contains the heading 'On this site' and two links: 'Market Rules' and 'Nodal Protocol Revision Requests'.

Corrected navigation alignment

Users on small screens may have had some of the navigation drop-down menus cut off on the left side of their screen. This issue has been corrected.

The screenshot shows the ERCOT website navigation menu. The 'Services' menu is expanded, displaying a list of links including Client Services, Market Participant Communications, Programs, and Projects. The page also features a 'Combined Wind and Solar' chart. The chart shows a line graph with a blue line and a green line, with a y-axis ranging from 15k to 25k. The chart is titled 'Combined Wind and Solar' and has a subtitle 'Last Updated: May 15, 2022 16:55 CT'.

Note: A Chromium browser should be used for best results.

If you have questions not covered in these release notes, please contact your Client Services representative, the ERCOT [Service Desk](#) or webmaster@ercot.com.
